CEAB Interrogatory Set 2
Questions in the CSC F-2007 Proceeding

TO UI

- CEAB 2-1 In reference to page 8 of the UI filing. How much "CLM activity" is included in the summer peak load forecast? In particular, please state whether:
- a. capacity savings from already-installed demand-side programs/measures are included in the company's summer peak load forecast. If so, please identify the amounts.
 - b. capacity savings from yet-to-be installed, planned demand-side programs/measures are included in (as an offset to) the company's summer peak load forecast. If so, please identify the amounts.
 - c. capacity savings from yet-to-be installed, planned demand-side programs/measures are not included in the company's summer peak load forecast. If so, please identify the amounts.
- CEAB 2-2 What level of capacity savings impacts from UI-sponsored programs/measures currently qualify or are eligible to qualify as ISO New England-sponsored demand response programs? Please explain.
- CEAB 2-3 Please provide a copy of UI's ten-year plan for infrastructure improvements in CT.
- CEAB 2-4 In reference to projects that the company expects to contract with as a consequence of the Department of Public Utility Control's Final Decision in Docket No. 05-07-14PH02, please identify each such project, the company's share of the associated capacity contribution (MWs) and the expected in-service date.
